**Ideal für Einsteiger**

*Nachträgliche Aufrüstung auf 10 Nadeln oder 1800 Stiche/Min jederzeit möglich*

---

### Fortron - Stickmaschinen: Schnell - Robust - Stark
highest productivity up to 1800 stitches/min

fast and simple operation

fully developed and manufactured in Germany

huge variety - frameworks for each type of textile

Frameworks of other manufacturers can be used with adapter

mighty hoops magnet framework

several machines can be connected and networked

stitching of the heaviest materials like leather, soles, belts

simplest positioning through multifunctional stepper

automatic check of the pattern in the framework

automatic color assignment

individual adaptation to existing PPS-systems

error-free order processing via barcode

accessories

2 high-speed frame options as needed

Workpiece table

Press arm iron

Instruction manual and accessory kit

Comprehensive training

Free telephone support

Stickmaschinensoftware STM:

Processing of all common stitch data formats

Running of the pattern before the start

View the frameworks in real-time

Optical control of the stitching field

View functions for applications

Adjustable frame for large materials

Machine speed for every needle programmable

Pattern of the pattern on the display

Display of cutting speed, rest time

Reducing the consumption of machine hours

Fortron Manager zur Mustervorbereitung:

Changing the motif size, rotating, mirroring

Import, size, attach and replace motifs from motifs library

Integrated monogram technique

Variable fonts, height, density, stroke

70 fonts included

Import of True-Type fonts (optional)

Fully automatic production

Personalized signs, labels, logos
